Web Design Project Features

Food Business Website

Home Page Features:
- A popup notification notifying the visitor to the website that the restaurant is closed for sit-in dining but open for takeaway, with a link to Deliveroo
- Logo in the top left corner of the page (Images from freepiks.com)
- A search bar (Not working) (Images from freepiks.com)
- Big Heading with Food highlighted: "Family Food"
- Description paragraphs beneath heading (Lipsum.com)
- Photo with rounded edges at the left of the page (Google Images with Creative Commons Rights)
- Links to share to twitter, instagram, facebook, and pinterest (Images from freepiks.com)
- Buttons that link to the where to find us and the menu pages
- A navigation bar with links to the Homepage, Our Story Page, Menu Page, Book a table page, and the where to find us page
- Navigation bar is interactive and has an animated border that grows above the link when hovered over
- Link to my github at the very bottom-right of the page

Our Story Page Features:
- Logo in the top left corner of the page (Images from freepiks.com)
- A navigation bar with links to the Homepage, Our Story Page, Menu Page, Book a table page, and the where to find us page
- Navigation bar is interactive and has an animated border that grows above the link when hovered over
- Heading with 'story' highlighted: "Our Story"
- Paragraphs of lorem ipsum telling "Story" of business (Lipsum.com)
- Photo with rounded edges at the bottom of the page (Google Images with Creative Commons Rights)
- Link to my github at the very bottom-right of the page

Menu Page Features:
- Logo in the top left corner of the page (Images from freepiks.com)
- A navigation bar with links to the Homepage, Our Story Page, Menu Page, Book a table page, and the where to find us page
- Navigation bar is interactive and has an animated border that grows above the link when hovered over
- Iframe displaying navigable menu pdf (menu pdf taken from Sample.net)
- Link to my github at the very bottom-right of the page

Book A Table Page Features:
- Logo in the top left corner of the page (Images from freepiks.com)
- A navigation bar with links to the Homepage, Our Story Page, Menu Page, Book a table page, and the where to find us page

- Navigation bar is interactive and has an animated border that grows above the link when hovered over
- Form to reserve a table, featuring name, email, date, time, and party sizes
- Submit button (Does nothing)
- Parallax image behind form to make the page more interesting (Google Images with Creative Commons Rights)
- Link to my github at the very bottom-right of the page

Contact Us Page Features:
- Logo in the top left corner of the page (Images from freepiks.com)
- A navigation bar with links to the Homepage, Our Story Page, Menu Page, Book a table page, and the where to find us page
- Navigation bar is interactive and has an animated border that grows above the link when hovered over
- Google maps showing location (UCD) of restaurant (Since I used google's system to do this it only displays a demo version since I didn't give Google's Cloud system my credit card information, the code however is perfectly functional)
- Animated marker on google maps located at the restaurant (UCD) that bounces when clicked
- Contact info in a list at the bottom
- Link to my github at the very bottom-right of the page
